

101 Things To Do Before You Die

Extra Paper

For those of you who ran out of paper in exams this is the download for you. If you don't want to cut out the extra paper in the back of the book, download these extra pages and leave your book intact.

Cut out the extra paper provided here and glue the shaded area to the edge of the **Thing To Do** form you are completing. Fold into the book. (see diagram)

Now you'll have no trouble fitting in all the details of your adventurous sexual encounters, the things you said to your boss when you left a job you hate or details of the perfectly executed practical joke you played on your dad.

Enjoy.
